

METRIQ® Integrated Oncology Management Systems Hosting Services

Remote Hosting of Impac Software Cancer Registry Systems

Impac Software cancer registry application hosting services provide registrars access via secure internet connection, while maintaining the METRIQ application and your database at the Impac Software data center.

Registrars can focus on abstracting, reporting, and analysis while Impac Software takes care of the rest:

- Reduce capital expenditures
 - No need to buy, maintain, or upgrade IT infrastructure
 - Only need standard workstations and an internet connection
- Decrease required internal IT resources
 - Stabilize and predict monthly IT costs
 - Reduce or mitigate burden on internal IT resources
- High availability data protection
 - Multiple point-in-time data snapshots with no impact to application performance
 - Daily full system back up with secure off-site storage
 - Redundant server and network infrastructure
- Quick and Simple software upgrades with no interruption to productivity
- Hardened data center with complete power and environmental defense
- Assure confidentiality and data integrity via 128-bit SSL Encryption
 - Configurable for multiple log-in layers
 - Firewall protection monitors and prevents unauthorized access
 - Advanced intrusion protection system
- Train either onsite or remotely

"We have always found Impac Software's Cancer Registry application hosting service to be extremely reliable and user-friendly. It allows high productivity, even when working from home, and the educational opportunities available for client services reduce the expense and inconvenience of traveling."

Deborah Poovey, CTR
Catawba Valley Medical Center

"Impac Software has raised the bar, with advanced cancer registry software and has proved to be the perfect solution for our remote cancer reporting needs. Impac Software provides superior technical support and service together with cutting edge technology and has been an integral part of our data collection process for our multi-facility health system."

Maggie Salinas, CTR
Christus Spohn Cancer Center
