

MOSAIQ™ Oncology EMR

MOSAIQ™ Clinical Trials

Enabling Research Workflow

MOSAIQ Clinical Trials is a full-featured clinical trial solution enhancing MOSAIQ's core charting capabilities. Enable the clinician workflow: screen, document and track clinical trials all from within the MOSAIQ EMR.

MOSAIQ Clinical Trials facilitates:

- Screening of patients for potential trial eligibility
- Documenting of patient enrollment to promote consistency of trial information
- Tracking of active trials, sponsors and patients

All information is stored within MOSAIQ EMR, helping your cancer team ensure seamless communication and care from trial registration through follow-up.

Benefits

How can MOSAIQ Clinical Trials help your clinical trial program?

- Interface by Internet between MOSAIQ and TrialCheck®, the most frequently updated, searchable database of cancer clinical trials
- Match eligible patients to your active trials
- Indicate with automatic messages when a patient is enrolled in a trial
- Link trial Care Plan with the corresponding patient
- Document clinical trials, sponsors, and patient enrollment
- Utilize available accrual, schedule, IRB and payment reports
