

MOSAIQ® Connect

Automatic transfer of oncology data to Impac Software Cancer Registry

MOSAIQ Connect provides an automatic transfer of data between Impac Software's Electronic Medical Record to METRIQ® and Précis™-Central Oncology Data Management Systems.

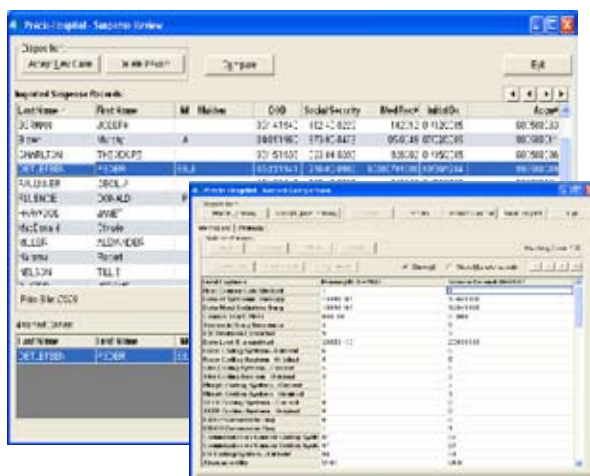

Automatic Case Finding, Abstracting and Follow-up

- Enhanced import and disposition functionality for the cancer registry application
- Accurate demographic matching criteria
 - Non-match -> new record is created
 - Match -> follow-up is updated
- Automatic creation of new suspense records
- Choose between manual or automatic record review and disposition
 - Individual and batch selection
 - Side-by-side record comparison
- Abstract defaults applied
- Import report details created
- Updates date of last contact

Outcomes From Over Five Years of Use:

- Registrars import files on a regular basis
- Augments traditional methods of casefinding
- Reveals second primary cancers
- Uncovers new cases in radiation therapy department diagnosed at another facility
- Assists with follow-up updates and timeliness

- Import new cases and match existing patients already in registry database
- Automatically update demographic and tumor data

*MOSAIQ®, Précis™-Central, METRIQ®, and MOSAIQ® Connect are Impac Software's oncology management products

Benefits:

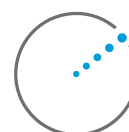

How can MOSAIQ Connect help your cancer registry program?

- Automatically transfer data from MOSAIQ Electronic Medical Record (EMR) for oncology to METRIQ and Précis-Central systems
- Integrate demographic, tumor and staging data from the EMR
- Automatically match new records with existing patients in registry database
- Save time by eliminating redundant data entry
- Enhance reporting capabilities
