MOSAIQ[®] SmartClinic

Mobile oncology workflow management

MOSAIQ SmartClinic Mobile oncology workflow management

Helping you make the most of your time

Cancer treatments are increasingly complex, with a wide range of professionals involved in patient care. At the same time, as the incidence of cancer continues to grow, oncology clinics are faced with ever-expanding workloads.

Your time is a valuable commodity—and we want to help you make the most of it.

Access the information you need whenever you need it, wherever you are

It's important for care providers to be able to keep track of care pathways and have access to all the relevant, up-to-date information they need.

MOSAIQ® SmartClinic allows you to do just that—quickly and easily.

Designed by Elekta in collaboration with clinical partners, SmartClinic provides intuitive oncology workflow management, enabling enhanced process visualization and streamlined care coordination throughout the entire patient journey. Made specifically for MOSAIQ®, SmartClinic gives you the freedom and flexibility to access information, complete tasks, and monitor department workflows whenever you want, no matter where you are. The SmartClinic app is available for iOS, Android and Windows devices and is easy to download from the appropriate app store to your desktop, tablet or phone.

Working seamlessly with MOSAIQ, SmartClinic allows you to get the information you need in an instant. You can view patient progress, check your schedule and complete tasks—at your desk or on the move, ensuring that care workflows run smoothly and efficiently.

-2 -

Keeping your data safe

- Multiple layers of authentication and security
- Username and password access
- Automatically uses MOSAIQ user security and permissions

MOSAIQ SmartClinic highlights

- Enhanced visibility: see patient details and end-to-end care needs at a glance
- Intuitive design: navigate through the system quickly and efficiently with fewer clicks
- Increased mobility: access the information you need wherever you are
- Fully configurable: customize views and workflows to meet your specific needs

Helping you see more clearly

SmartClinic allows you to access quality data with little effort. It's all at your fingertips wherever you go, so you can make informed care decisions quickly and easily.

At a glance, you can see the current status of the care plan for each patient and the actions that need to be addressed. Complete tasks, add notes and communicate with multiple care providers simultaneously for enhanced collaboration and fully coordinated patient care. The intuitive SmartClinic software updates the care plan after each step is completed, and the next task is then shown as pending. All new information is immediately captured in MOSAIQ as the constant "source of truth".

From the SmartClinic homepage, a single tap will take you to the essential information you need.

Worklists

- View your pending tasks
- Review and approve documents
- Check off completed tasks

Patient synopsis

- Get a succinct patient overview
- Check patient chart, treatment status and appointment schedule at a glance
- Be fully informed during consultations and MDT meetings

Appointments

- Check your appointments for the day, week or month ahead
- View appointments by person or by clinic
- Open a patient synopsis with a single tap

SmartBoards

- View the care path workflow for multiple patients
- Track progress and advance the care path without delay
- Look ahead to forecast and manage workloads

SmartForms

- Quickly open the correct form for the correct patient
- Ensure each question is based on previous answers with its dynamic design
- Complete and submit forms electronically
- Create new forms to your specific requirements

Configuration

- View and change your personal settings
- Add tabs and customize views according to your needs
- Tailor SmartBoards to your specific workflows

Intuitive design

SmartClinic has a user-friendly, dynamic design, allowing you to navigate quickly and efficiently through the system with few clicks or taps. It's easier to get the information you need, ensuring you have more time to spend on patient care.

Helping you work more efficiently

Process automation

SmartClinic automatically performs a range of predictable steps to ensure maximum workflow efficiency:

Proactive workflows

As soon as a SmartBoard task is completed (or a significant change is made, such as with a prescription), SmartClinic proactively shows the next step that needs attention and automatically notifies the person/people responsible.

SmartForm selection

When input, such as consent, is required, the right SmartForm automatically appears for the right patient, at the right time. It can be completed and signed electronically, and MOSAIQ is updated immediately. SmartForms can also be used to record physician intent, which drives the relevant SmartBoard processes.

Notifications

Automatic notifications ensure that you always know when an action is required, which minimizes delays.

MOSAIQ updates

All updates, notes and data input in SmartClinic are automatically captured in MOSAIQ—your constant "source of truth".

Optimize workflows

By allowing you to complete tasks quickly and efficiently, from any location, SmartClinic helps save valuable time, minimize delays and optimize the care path workflow.

Elekta Care

Elekta Care supports you from startup through your product's lifecycle with comprehensive options from education, training and upgrades to solutions allowing you the highest uptime and improved operational efficiency.

Optimize your clinical capabilities

Improve operational efficiencies

Enhance your return on investment

Elekta Care Support

Quickly access clinical applications, technical or physics support—backed by a global support network

Elekta IntelliMax[™]

Help avoid unplanned downtime through securely controlled remote technology monitoring

Elekta Care[™] Community

Bring the power of our dedicated support organization straight to your desktop

Elekta Care[™] Learning

Expand clinical, physics and technical learning across Elekta's portfolio to keep staff current

Service and Maintenance

Maximize clinical availability and usage of Elekta solutions*

For almost five decades, Elekta has been a leader in precision radiation medicine.

Our nearly 4,000 employees worldwide are committed to ensuring everyone in the world with cancer has access to—and benefits from—more precise, personalized radiotherapy treatments.
