

MOSAIQ[®]
Teleport

**Easy, fast,
painless importing**

MOSAIQ® Teleport

Save time and streamline the document import process with MOSAIQ® Teleport. With just a few clicks, users can quickly and easily get important information from various sources directly into MOSAIQ—without the need to print, scan, convert and import records. Teleported documents appear in MOSAIQ in a common PDF format, giving you complete information at your fingertips.

	Name	StartDate	Description

Associating plan documents to radiation Rx

Snip anything on your screen

MOSAIQ Teleport lets you snip any portion of your screen and import it as a document directly into MOSAIQ. This feature is useful when the same page contains information that should go to different patient records or belongs in different document types.

Import items instantly

Capture faxes, emails, photos, treatment plans and records from other EHRs and send them to MOSAIQ with just a few clicks. Simply click **Print to Teleport**, or drag and drop your item and complete a brief form. Users can quickly and easily edit and split a file into multiple encounters or append separate documents together into a single Teleport encounter. Drag and drop thumbnails into the order you'd like them to display when they are teleported into MOSAIQ.

Split a document into multiple encounters and collect metadata for imported files

Create watch folders

By setting up watch folders, MOSAIQ Teleport will check for new information periodically and alert you when an item is ready to Teleport into MOSAIQ. Users can take over watching a folder from another user, ensuring important items aren't missed. Stop watching a folder by removing the check mark next to the folder name.

Get duplicate import alerts

Similar to MOSAIQ eScribe/eScan modules, MOSAIQ Teleport warns you about possible duplicate imports if the encounter date and document type match one that was already imported with the same criteria for the same patient.

Ability to edit and append (merge) documents prior to MOSAIQ import

For almost five decades, Elekta has been a leader in precision radiation medicine.

Our more than 4,000 employees worldwide are committed to ensuring everyone in the world with cancer has access to—and benefits from—more precise, personalized radiotherapy treatments.
